

Kemppi Art of Welding Competition 2025

Welcome to the Kemppi Art of Welding Competition 2025.

The competition is open to anybody involved with the “art of welding”, including welders, apprentices, welding teachers, researchers, students, hobbyists and artists working with metals.

This year's competition will again include a dedicated Amateur Prize for the best amateur entry. If an amateur wins 1st, 2nd or 3rd prize in the competition, then the Amateur Prize will go to the next best amateur entry.

To enter all you need to do is send us a photo of a piece of “Welding Art” which you have created. What is welding art? It could be a welded sculpture, a pattern design, a motif, an object - which must have been created by welding. The welding can be done manually or using more advanced techniques such as robotics, lasers, or friction welding.
